Footnotes:

- a.....emissions (and therefore emission reductions) are not calculated for this measure.
- b.....emissions were not calculated since the District did not adopt this measure.
- c.....emission reductions were not presented since the measure was adopted prior to 01-97
- d.....emission reductions presented are given as a total value from the date of adoption to include only the calendar years of 1998, 1999, and 2000 ---these years represent the planning cycle for this report.
